

The Faculty of Science and Medicine of the
University of Fribourg/Switzerland
and the Fribourg Hospital (HFR)

are offering a

Full Professorship in General Internal Medicine in conjunction with the position of Chairman of the Department of Medicine (100%)

This position is available as of the 1.7.2021.

As the new chair holder, you will be in charge of the Department of Medicine at the Fribourg Hospital HFR. You will be responsible for the teaching of medical students, the clinical training and continuing and advanced education of the medical profession, the promotion of junior doctors, as well as for research in the field of General Internal Medicine, particularly with a clinical and translational focus. The HFR is the academic training hospital of the University of Fribourg, which since 2019 is the sixth university in Switzerland to offer the full course of medical studies. The Clinic for General Internal Medicine is the largest clinic of the HFR and accredited as an A-clinic by the SIWF (Swiss Institute for continuing and advanced education).

The habilitation or an equivalent academic record of achievement as well as an internationally recognized research track record, the acquisition of competitive third-party funding and the specialist title in general internal medicine are required. An additional subspecialty of one of the larger sub-areas of internal medicine is an advantage. As bilingual institutions, the proficiency in French or German (level C2) is required with a very good knowledge of the other language (or acquiring it within reason).

An experienced clinician with management and leadership experience, ability to integrate, willingness to cooperate and a strong commitment to the promotion of junior researchers and equality is expected. Candidates are expected to conduct independent clinical research at a high level and to acquire future third-party funding. As a communicative and person of integrity, you will be able to master the challenges of the individual internal medicine departments and coordinate the needs of a hospital stretched over multiple locations.

As employers, the University of Fribourg and the HFR promote equal opportunities and therefore particularly encourage female candidates to apply.

The closing date for applications is **31 August 2021**.

For further information on the application process, please go to our website www3.unifr.ch/scimed/positions. You may also contact the President of the committee Prof. Dr. Gregor Rainer, Dean of the Faculty of Science and Medicine at the University of Fribourg, (gregor.rainer@unifr.ch, Tel. +41 26 300 8451).
